

W. A. SWINNER, General Manager Advertising Agent, corner of Olive and Main streets, St. Louis, Mo., is the agent for the Louisville Times.

It will be seen from our despatches that the news from St. Domingo is important and full of interest.

Mr. Dr. Stuart, the oldest Presbyterian minister in Kentucky, died near Nicholasville on Sunday night, Aug. 10.

Mr. Thos. H. Benton, of Missouri, reached the city yesterday and put up at the National Hotel.

The National American is the name of a new book, which is now being published at Owensboro, Ky., by John Giddings Ford. A very proper name for a new book.

Our Police Report, of yesterday, it was stated that John, a son of Thomas Thompson, was before the Police Court for disorderly conduct. It was an error. John is the servant of Mr. Thompson.

Col. Jack Allen, of Nicaragua, reached the city yesterday, from a visit to Shelby county. He is entirely restored to health, and will return to Nicaragua early in September.

Mr. Logan, on Friday of last week, Mrs. Jessie Hagley was killed by a man named Pleasant J. Coleman. He struck her on the head with an axe. The Grand Jury being in session, a true bill was found against him for murder in the first degree.

The "Henderson Weekly Commercial" is the title of a new commercial and news paper, published at Henderson, Ky., by Messrs. Rickard, Abernethy & Co. It is handsomely printed and well conducted. We wish the enterprise success.

It will be seen from our telegraphic despatches that the old line Whigs of New York cannot stand on the Democratic platform. They seem to think there is "a nigger in the woodpile." The truth is, that most of the old line whigs in the free States is a "bad egg," and would begin to do their proper place with Fillmore and Fremont.

Frank Madden, third star, near the Post-office, has received Harper's Magazine for September. It is like all the former numbers—rich and racy.

See advertisement in to-day's Times of S. H. Jack, of the Eighth street Flour Mill. He is turning out an extra article of superfine family flour. We have tried it, and we pronounce it as good as can be made out of wheat. Dealers and Commissionaires are supplied on moderate terms. Get a barrel.

For Memphis.—The light-draft steamer City of Cairo, Capt. Youn, will leave positively for Memphis this morning at ten o'clock. This steamer is finely furnished, and in command of the very best officers. Those who wish to travel pleasantly, and be certain to "go through," will find the City of Cairo the best to ride on. N. S. Long and Messrs. McDowell & Robertson are the agents. Off at ten o'clock certain.

The new volumes of Blackwood and the four British Reviews, commence as follows: The North British, July, 1856; Edinburgh, July; London Quarterly, July; Westminster, July; and Blackwood, July, 1856.

Subscription price: Blackwood or any one of the Reviews, \$3 a year. Blackwood and four Reviews—or any two Reviews, \$5. The four Reviews, \$8. Blackwood and the four Reviews, \$10.

This is a good time for subscribers to begin, as the volumes commenced in July. They are the cheapest publications extant.

Address, L. Scott & Co., Publishers, 54 Gold Street, corner of Fulton, New York.

The Baltimore American, of Tuesday, says: The money market is lightening up. The demand for money is increasing, and although the banks are still discounting freely, the offerings of paper on the street have increased materially within the past two days. Street rates are in consequence advanced. We now quote first class endorsed paper at 80 per cent, and good sample at 100 per cent. Call loans can be made at 10 per cent.

The receipts of Sugar at New York continue large. The Post says: The number of vessels laden with sugar from the West Indies have much increased of late. The high prices obtained for Muscovado have induced an increased importation. The increase in these vessels has occasioned rather more than the usual number of cases of yellow fever among the arrivals from Havana.

The Cincinnati Commercial of yesterday, says: The Bankers are buying the notes of Warren County Bank at 3 1/2 dis. of the Commercial Savings Bank, Md., at the same. The notes of the Bank of New Castle at 5 dis., and those of the Erie City at 10 dis., and no doubt will make money at it.

Murder by abortion. The case of Dr. Lasli, charged with the murder of Emeline Hughes, in procuring abortion, was before the Police Court yesterday.

Lee White, coroner, testified that he held an inquest on Emeline Hughes yesterday. Made post-mortem examination. The body has marks on it inside which probably caused her death. They may have been produced by external pressure. The deceased had a child in her womb, but it had been evidently produced by abortion. The marks may have been made by a physician, or by any one else, or by the deceased herself.

Dr. Owen testified he was present at post-mortem examination. The marks were in a high state of inflammation if not absolute mortification, produced by an abortion. Witness was called in last week to see her, found her three months advanced and found her to be a child in her womb, but she would not take the medicine. Had his suspicions aroused that she wanted to produce an abortion; warned her of the danger. Visited her again and prescribed for her. She did not take the medicine. Visited her a third time, when she told him that she had had a miscarriage, and seemed cured with it. Said she got the medicine from Dr. Owen. She appeared to be conversant with the modes of procuring abortion; said she had been pregnant three times before she was introduced.

Dr. Owen was present at the post-mortem examination. There was a deep inflammation both inside and outside. There were two ulcers verging on or in actual mortification, produced by an instrument or stick. Some reason was given by the accused for the deceased were examined by witness, who stated that none of these were intended for abortion. They were small ulcers. Witness did not think that a physician could possibly have introduced the instrument and caused the wound. Witness was called on by accused on the day preceding the death of the woman to see the deceased. She appeared to be a woman who had had an abortion, but she would not take the medicine. Had his suspicions aroused that she wanted to produce an abortion; warned her of the danger. Visited her again and prescribed for her. She did not take the medicine. Visited her a third time, when she told him that she had had a miscarriage, and seemed cured with it. Said she got the medicine from Dr. Owen. PROPOSAL OF CHEAP FLOUR.—The Cincinnati Price Current estimates the quantity of wheat gathered the present harvest at fully ten per cent. greater than has been gathered any previous year. The same authority also states that the quality of the new wheat is excellent. The grain is full and bright, and perfectly dry and sound, and from a careful examination of the advice which it has received, it is felt justified in giving the following figures as the quantity of wheat gathered in each State this year:

State.	Bushels.	State.	Bushels.
New Hampshire.	40,000	Mississippi.	100,000
Maine.	100,000	Alabama.	100,000

In the British Islands at least accounts the weather was favorable, and the crop looked well. In France there is some fear of a short crop, and any deficiency will be largely supplied from the countries bordering on the Mediterranean, and perhaps in some measure from Russia. In Russia the crop is reported as promising well. This prospect of cheap bread is a joyous one for the bailing millions.

CITY COURT. FRIDAY, AUG. 15. George Hill, an old German, disorderly conduct. He had a quarrel with a woman who resided in the same house. She attacked him with a knife, and he seized her by the throat, and was doing any damage. Bail in \$200 for three months.

Charles Foster alias Donnelly, suspected felon. Foster attempted to rob a man. He came here a few days ago with his wife, and has been frequenting houses of bad repute. He had in his trunk letters to various parties, and also some other articles. He was arrested, but was not known. Bail in \$400 for three months.

William Lee and Amos Henderson, assault on Thomas Leonard. James Johnson says that Ros Henderson, a third man, who was not present, stood at her house during the night. In the morning Leonard came in. They sent for whiskey and all got drunk. A dispute arose between Leonard and Henderson, and Leonard struck the man. The man then struck Leonard, and the woman said that if they wanted to fight to go out into the yard. Leonard, who was very drunk, started out with Ros, and Leonard left the house Henderson struck him with a club on the head, inflicting a very severe wound. Leonard is unable to leave his bed. The court required a warrant for the arrest of Henderson, and he was taken to jail.

William Allen (f. m. c.), emigrating to this State contrary to law. Continued. Patrick Holm, assault on Catherine Carr. The court sent the matter before the grand jury. Peter Wattant vs. Jno. Gilsen against Peter Henry. Own recognition taken in \$200 for three months.

Peter Wattant vs. Tom Cole against Kleschies. Witness sent before the Grand Jury.

New Albany and Salem Railroad.—This road is the speediest route to Chicago and the Northwest. Passengers leave the depot at New Albany at 1:45 P. M., and arrive at Chicago at 7 o'clock the following morning. The way mail train leaves at four in the morning. Both trains connect at Terre Haute with the St. Louis and Cairo trains and with all the trains leaving Chicago in every direction. The road is in capital condition and recently a number of splendid passenger cars have been put on it. An omnibus will call in any part of the city for passengers and deliver them at the depot. New Albany free of charge, on application to the agent, A. H. Haines, opposite the Galt House.

A PRETENSED INHERITANCE.—What lady or gentleman would remain under the curse of a disreputable husband, when by using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath aches, and the subject is so delicate that their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and rosy hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

SHAMPOO MADE RIGHT.—Wet your shaving-brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful and softer than ever. It will facilitate the operation of shaving. Price only Fifty Cents. Fretz & Co., Proprietors.

For sale by J. S. Morris & Sons, R. A. Robinson & Co., Bell, Talbot & Co., Louisville, Ky.; Schlicher & Devel, New Albany, and all Drugists.

SHORT AND SWEET.—No. 1.—In your coal before it reaches 25 cents a bushel. Be polite,—answer no more oaths than you can find in your dictionary.

Never touch a black glove against a lady's face. If you've got a five dollar bill and your neighbor only has a one, don't stick your nose up at him,—you both might break.

Don't let your ambition get ahead of your judgment. The old Dr. Franklin was always breaking because he had too much steam power for his bull.

Don't dress in pink, blue, or white to have our picture taken, and then tell the Artist you thought it wouldn't take well.

STRIKING A BART.—Somebody's trying to steal somebody's baby; twig the following: Mr. Hawkins of this city has discovered a process by which he is enabled to produce pictures on glass in their natural colors.—Cincinnati Gazette, April 10th, '56.

Mr. Willoughby, of Ohio, has applied for a patent for his newly discovered process of producing pictures on glass in their natural colors.—Cincinnati Gazette, April 10th, '56.

Prospectus for publishing a treatise on Heliography, or the Production of Pictures in Natural Color, embracing a full, plain and unreserved disclosure of the process, and the history of the art, including the author's newly discovered Heliography, or Natural Colors on Colored Glass.—Hilli's Circular, July 1, 1856.

"Of all the improvements in the photographic art, the one made by Heliography is the greatest,—that of producing Natural Colors in Pictures."—Hilli's Circular, July 1, 1856.

We would say that the above appears like a desperate effort to propagate a false impression as to the nature of the Heliography. We anxiously await the issue, hoping the offering may realize the expectations of its four friends. We add the following:

THIRTY-FOURTH CONGRESS—FIRST SESSION. SENATE.—The Senate took up the bill for the House to reimburse the State of Vermont for expenses incurred in 1838 and 1839 by the payment of the militia in the prosecution of the rebellion. Mr. Wilson introduced a bill to secure to actual settlers the benefit resulting from grants of lands for railroad purposes, reserving to them the right to sell the same at a profit.

The Senate then resumed the consideration of the civil appropriation bill. The bill was passed by a vote of 24 yeas and 12 nays. The House took up and passed the bill for the House to reimburse the State of Vermont for expenses incurred in 1838 and 1839 by the payment of the militia in the prosecution of the rebellion.
